
KNOWLEDGE AND INTEGRITY
VIVEK
HIGH
SCHOOL
THE ANNUAL
SCHOOL REPORT
2026-2027

Since its inception in 1984, the goal of Vivek High's philosophy has been to create a community of 21st-century learners through academic, extracurricular, and character education. The school ethos nurtures in young minds a global outlook, social responsibility, leadership, the ability to make reasonable and rational choices, team spirit, tenacity, appreciation for diversity, and collaboration with an open and inquiring mind. When the students step out of the portals of Vivek High, they must do so as complete human beings with a sound spiritual foundation, as well as a deep, responsible engagement with the outside world.

Our journey toward excellence continues for the enrichment and development of the students on intellectual, spiritual, physical, and moral levels. At Vivek High, life becomes a ground where, through learning and experiential education, students imbibe organizational skills, critical thinking abilities, public speaking skills, a sense of social responsibility, leadership qualities, and a global mindset. All of which are truly the attributes of 21st-century learners who are future ready and aware of their cosmic purpose.

PRINCIPAL'S ADDRESS

"The greatest gift we can give our children is the ability to grow into compassionate, purposeful individuals. At Vivek High, we focus on holistic development, fostering hope and faith in our students. We guide them to discover their unique purpose. At the same time, we encourage a sense of belonging and instil values of gratitude and integrity. Our goal is to nurture stronger, kinder individuals who are equipped to embrace endless possibilities and make a positive impact in the world."

NINE DIRECTIONS

"If you can't fly then run,
if you can't run then walk,
if you can't walk then crawl,
but whatever you do,
you need to
KEEP MOVING FORWARD."

— Martin Luther King Jr.
